

Hairdressing

Hairdressers are creative by nature and often have to plan ideas to meet the needs of clients, for occasions such as weddings and birthday parties. This requires thought and preparation to ensure it is suitable for the occasion.

This task is to illustrate and possibly demonstrate your own natural creative flare.

The task

We would like you to create a mood board around the theme of 'festivals'.

Using your natural creative design ideas, you will create a mood board to reflect your individual ideas for festival hair.

Here are some suggestions:

- Hairstyles that you would like to wear at a summer festival.
- Accessories for hair, face and body.
- Makeup ideas.
- Clothes.
- Anything else you think is relevant.

Focus mainly on hair, however the theme wouldn't be complete without makeup and clothes ideas, so add these other elements to your mood board.

You can illustrate your ideas using either an A4 piece of paper and cutouts from magazines, 3D objects and materials, or you can use your IT skills to upload an online mood board once complete.

To extend the task further, you could carry out a hairstyle of your choice to match the theme and upload some photographs.

We look forward to seeing your ideas and hopefully completing your look in the coming academic year.
